To date, 4ocean has removed more than six million pounds of trash from the ocean and coastlines. Drawing on their years of experience, 4ocean will also participate with the Air Canada team to develop educational resources on ocean conservation. These cleanups are in line with Air Canada's single-use plastics reduction strategy and help the airline meet its goal to leave less and do more for the environment.

### About Air Canada

Air Canada is Canada's largest domestic and international airline serving nearly 220 airports on six continents. Canada's flag carrier is among the 20 largest airlines in the world and in 2018 served nearly 51 million customers. Air Canada provides scheduled passenger service directly to 63 airports in Canada, 56 in the United States and 101 in Europe, the Middle East, Africa, Asia, Australia, the Caribbean, Mexico, Central America and South America. Air Canada is a founding member of Star Alliance, the world's most comprehensive air transportation network serving 1,250 airports in 195 countries. Air Canada is the only international network carrier in North America to receive a Four-Star ranking according to independent U.K. research firm Skytrax, which also named Air Canada the 2018 Best Airline in North America. ### About 4ocean

[4ocean](#) is a global company that actively removes trash from the ocean and coastlines, helps create sustainable economies around the world and inspires individuals to work together for a cleaner ocean. Global cleanup operations are funded entirely through the sale of their bracelets and sustainability products, where every item purchased funds the removal of one pound of trash from the ocean. By creating jobs, utilizing the latest technology and raising awareness about the impact of plastic and trash in the ocean, the company is building the first economy for ocean plastic and creating a cleaner, more sustainable future for the ocean.
