MONTREAL, Oct. 7, 2021 /CNW Telbec/ - As Air Canada continues rebuilding its global network in response to increasing travel demand, the airline was recognized for its people, products and services at the recent 2021 Skytrax World Airline Awards with honours for: Best Airline Staff in North America, Best Airline Staff in Canada, Best Business Class Lounge in North America, and Excellence for COVID-19.

"I am very proud of these recognitions as voted for by our customers, for our service and products as we begin emerging from the pandemic which has impacted travel and our industry for the past 18 months. The two awards for Best Airline Staff in both North America and in Canada are especially significant, as they are a direct reflection of our loyal employees' unwavering dedication and hard work in taking care of our customers and transporting them safely during a challenging and complex period. I thank our employee teams for their tireless efforts, and I thank our customers for recognizing their drive and work," said Lucie Guillemette, Executive Vice President & Chief Commercial Officer at Air Canada.

"We continue restoring our global network to meet growing demand and will be introducing new products to further enhance our customers' journey. As people are increasingly making plans to travel again, we look forward to [welcoming more customers back onboard](#) and transporting them to their destinations safely," concluded Ms. Guillemette.

About the Skytrax World Airline awards

The World Airline Awards began in 1999, when Skytrax launched its first global, annual airline customer satisfaction survey. They are referred to as the *Oscars of the aviation industry*. The awards survey process is not restricted to member airlines or a pre-selected choice of airline, and any airline in the world can be nominated. There are no survey entry fees, no payment to attend the awards event, and no charges for any use of the award logos and results by winning airlines. The customer surveys are provided in English, French Spanish, Chinese, Russian and Japanese.
