MONTREAL, Oct. 13, 2021 /CNW Telbec/ - Air Canada announced today a strategic expansion of its India services, with additional flights from Toronto, and a new year-round, non-stop route between Montreal and Delhi. Starting October 31, just in time for Diwali celebrations, Air Canada will offer three flights per week to the growing Indian community in Montreal. Additionally, the airline is increasing frequency to Delhi from Toronto to ten flights per week beginning Oct. 15. All flights will be operated with Air Canada's most modern aircraft, the 298-seat Boeing 787-9 Dreamliner featuring a choice of three cabins of service: Air Canada Signature Class, Premium Economy and Economy class.

"The Canada-India market is an important and strategic one for Air Canada. These additional flights and new route demonstrate Air Canada's anticipation about the promise and growth of the Indian subcontinent- and we also look forward to further strengthening the cultural and business ties between our two countries," said Mark Galardo, Senior Vice President, Network Planning and Revenue Management at Air Canada. "Today's announcement also confirms Air Canada's commitment to growing its main hubs of Toronto, Vancouver, and Montreal, with convenient non-stop service to India from each hub. Air Canada is the only carrier offering a direct service to Delhi out of Montreal, allowing for easy connections through our extensive network. We continue to focus on the growing visiting friends and relatives market and this capacity expansion is a response to increasing demand."

As the leading carrier between the two countries, Air Canada offers daily flights from Vancouver, up to ten flights a week from Toronto and three flights a week from Montreal. The airline's service to Mumbai will resume when conditions permit.
